Re: NYSDEC Spill #'s: 0070043 & 0070044

Rochester (C), Monroe County

On April 12, 2011, the Department received both the Site Management Plan and the Health & Safety Plan, for the above referenced spill locations. Upon review of the aforementioned Plans, the site work conducted and previously submitted information, the Department does not require further remedial action at this time. These spills have been removed from the Department's active case files. Be aware that this ruling does not preclude reactivation of these cases should new information become available and/or an impact to a receptor be discovered in the future.

If there are any questions or comments, feel free to contact me at either the above address or by telephone at 585-226-5438.

Sincerely,

Michael F. Zamiarski, P.E.
