ROCHESTER POLICE DEPARTMENT INCIDENT REPORT

- 1). I was dispatched to 247 N. Goodman Street for a working structure fire.
- 2). The structure at 247 N. Goodman is a 3 story masonry building that was unoccupied.
- 3). The weather conditions at the time were a temperature of 16 degrees, the humidity was at 88% and the winds were out of the NNE at 14 MPH. There was light snow falling at the time also.
- 4). The room of origin appeared to be a 3rd floor room on the south side of the structure.
- 5). The area of origin appeared to be combustibles on the floor in the room of origin.
- 6). The fire traveled throughout the room of origin up to the ceiling and eventually out through the roof. The fire continued to travel across the 3rd floor and the roof.
- 7). There was tremendous heat damage to the 3rd floor and the roof, in fact the roof burned through.
- 8). Due to Safety Factors, I was unable to enter the 3rd floor, my observations were made from Truck 10's bucket.
- 9). Engine 9, the first Fire Company to arrive on location, reported "flames coming through the roof and requested a 2nd alarm assignment be dispatched. The fire eventually turned into a 3 Alarm Fire.
- 10). For owner info, see Car 98 Kenyon's IAR.
- 11). Unknown if the fire alarm system was working at the time, it is known that the sprinkler system was shut down prior to the fire.
- 12). At this time, this is an undetermined fire as to the ignition source. The investigation will be officed, pending further information.

NARRATIVE

On Tuesday January 27, 2015, at approximately 0510 hours, Car 98 Inv. K. Kenyon and Car 91 Inv. M. Walker responded to 247 N. Goodman St. for a third alarm fire in a three story commercial building under renovation. The fire was still in progress upon the arrival of the FIU. Car1 Fire Chief J. Schreiber was in charge. I arrived at approximately 0519 hours and first spoke with (PK) Darrell Foster who is the superintendent of the property. Darrell stated that the second and third floor of the structure was under renovation with the job almost complete. Darrell locked up the building at about 1700 hours on Monday, January 26th and the only person in the building was the electrician working on the second floor. The electrician had his own key and was able to let himself out when finished.

ROCHESTER POLICE DEPARTMENT
INVESTIGATIVE ACTION REPORT
CASE UPDATE

I next talked with (V) Gary Stern the owner of the building. Gary also said that the renovations on the second and third floor were almost complete and he had most of that space rented to a new tenant scheduled to move in the month of February. Gary said that yesterday the third floor was being painted and the wooden floors were being sanded and resealed. Gary did not know what type of floor sealer was being used but said it came in quart size cans. The recently installed heating units on the roof were providing heat to the building on the second and third floors and they were on. Gary signed an owner deposition.
