Dear Mr. Biondolillo:

Re: **NYSDEC Spill # 0270474**  
**80-100 Charlotte Street**  
**Rochester (C), Monroe County**

The purpose of this letter is to inform you that the Department has received and reviewed the quarterly groundwater sampling data for sampling events that took place on July 31, 2006 and April 19, 2007. Based on this data, the site work performed to date, previously submitted information and the engineering/institutional controls that will be utilized as outlined in the March 2007 Environmental Management Plan, the Department does not require any additional remedial action take place at this time. This spill has been removed from the Department's active files. However, be aware that this ruling does not preclude reactivation of this case should new information become available and/or an impact to a receptor be discovered in the future.

If you have any questions or comments, feel free to contact me at either the above address or by telephone at 585-226-5438.

Sincerely,

Michael F. Zamiatzki, P.E.
